

How to Read Your Score Report

Overview. This report provides your scores for the Michigan Test for Teacher Certification (MTTC). For each test/subtest you took, it indicates whether or not you met the minimum requirement for the test, and if you did not meet the minimum requirement, your total test score. A description of each test, including the list of subareas and objectives, is included in the study guide for the test. Study guides are available on the MTTC website at www.mttc.nesinc.com.

Total Score. The total score is calculated for each test or subtest. Your total score is based on the number of multiple-choice questions you answered correctly in combination with the scores(s) on any constructed-response assignments on your test. Results are reported on a scale with a range of 100–300. A scaled score of 220 indicates you met the minimum requirement for each test/subtest. Your numeric test/subtest total score is provided if you did not meet the minimum requirement for the test/subtest. To preclude the use of MTTC scores for purposes other than credentialing (e.g., employment, assignment), numerical scores are not reported for candidates who meet the minimum requirement.

Scores that meet the minimum requirement for the MTTC are established by the Superintendent of Public Instruction based on recommendations of panels of Michigan educators.

Status. “Met the Minimum Requirement” indicates you have satisfied the testing requirement for your certificate/endorsement. “Did Not Meet the Minimum Requirement” indicates that you have not satisfied the testing requirement for your certificate/endorsement.

Reporting of Scores. Your scores have been forwarded to the Michigan Department of Education and to the Michigan institution(s) you indicated during registration. You should keep this score report for your own records. It is your responsibility to complete all necessary application processes required for obtaining a Michigan teaching certificate or endorsement for which passing one or more MTTC test(s) is required.

Retaking the Test. If you need to retake a test, please consult the MTTC website, www.mttc.nesinc.com, for information on registering.

Michigan Department of Education. For additional information related to certification please contact the Michigan Department of Education at www.michigan.gov/teachercert.

Test Score Status. MTTC scores are valid for five years. MTTC scores must be used toward a Michigan educator certificate within five years of the test date. Candidates who apply for a certificate using MTTC scores that are more than five years old may be required to retest.
